PUBLIC COMMENTS –

Approval for services – It was shared that in the community, each insurance company will approve services and how long to be provided. United Healthcare has a requirement for QMHP to have a masters.

Monica Lucas voiced the need for a class or test to verify that the persons are actually qualified. Now there is registration, but no certification.

There is also a need for society, "the system," and/or government to be more proactive in providing services before situations evolve into a crisis. Also, the need to coordinate services, including early intervention.

Dialog with community – There is also a need for dialog with the community regarding the role and activities of the LHRC, particularly to address safety issues in community.
